Dear Colleague

We are happy to announce our **3rd Annual Logistics & Temperature Control Hybrids Conference** which will be held **27th-28th of April 2023**, at **Prague, Czechia** and on BigMarker Platform.

Logistics become nowadays one of the most rapidly developing industries with a lot of new know-hows and new technologies. At the present time, logistics companies implement cargo transportation services by land, air and water while adapting to the changing nature of the economic patterns and digitization.

Join us for an event which offers a meeting place for top manufacturers, researchers, academics, decision-makers and other business professionals who are keen to share their knowledge and experience in newest strategies in transportation and logistics industry and opportunities for further development.

The conference represents a unique opportunity for learning, exchanging opinions, and expanding one's network enabled by live presentations followed by dynamic Q&A sessions – providing the attendees with valuable insights from specialists in the sphere of transportation and logistics.

3rd Annual Logistics & Temperature Control Hybrids Conference:

- 11+ different topics
- Panel discussion
- Networking with business professionals and industry experts
- Post-conference materials

If you would like to participate, kindly book your spot. The seats are limited.
Broadcast Link will be provided via email post registration.

Key Points

- 🔑 Supply chains; Problems in the traditional supply chain management;
- 🔑 Predictive Process Monitoring;
- 🔑 Intermodal transportations;
- 🔑 Self-Driving Vehicles in Logistics;
- 🔑 Cold Chain Challenges & Solutions;
- 🔑 Warehouse management tools;
- 🔑 RFID Chips;
- 🔑 Last Mile Planning;
- 🔑 OMS;
- 🔑 Driverless autonomous trucks;
- 🔑 Embedded technology for connection with customers;
- 🔑 IoT technologies implementation;

Speakers

Luiz Alberto Barberini
External Manufacturing
Operations Manager

Alex Popa
Associate Director |
Blockchain for Pharma
Supply Chain

Chris Wallace
Senior Vice President
Supply Chain

Maurits Dogterom
Business Developer
Medical Drone Service

Pratik Jain
Project Manager

Roberto Mantegazza
Supply Chain Manager
Independent Specialist

Milind Tailor
Global Head, Services
Procurement & Vendor
Management

Matteo Maccani
Global Vaccines
Supply Chain

Javier Rapado Simarro
European Region Cold Chain
Logistics Product Manager

Olaf Herzog
Senior Vice President

Paweł Łotecki
Supply Chain & Logistics
Operations, Warehousing,
LSP management
Omnisolutions

Who Should Attend

**CEOs, VPs, Heads, Directors, Managers,
R&Ds, Academics, Chemists, Technologists,
Developers, Business Development,
Scientists, Software developers of:**

- Roads & Transport Engineers
- Logistics Professionals
- Supply Chain Professionals
- in Logistics industry
- Consultants: Engineering,
- Technical, Environmental
- Sustainable mobility solutions
- Mobility service operators & providers
- Technology & supporting infrastructure
- Transport Experts
- Chips manufactures
- Semiconductors manufactures
- Machine Learning Experts
- Software developers

Media Partners

FORWARDER magazine is the first of its kind on the market. Their readers enjoy unprecedented access to the world of forwarding from the latest industry news to exclusive information on developments in the Merger and Acquisition market. FORWARDER is the only magazine that gives you the first, fastest, and greatest insight into everything freight.

Working on a global scale with some of the largest providers in freight, FORWARDER is a multi-platform publication that can take readers one step further into the world of distribution and logistics through the use of the print, web, and social media. OPENING REMARKS	9:00-9:10 CET	SESSION 3	
SPEED NETWORKING	9:10-9:30 CET	Implementation of IoT to improve processes	13:35-14:15 CET
SESSION 1 <i>*1 slot is available</i>		 <div> Pratik Jain Project Manager DHL </div> 	
Identifying & Overcoming Road Blocks In Your Supply & Logistic though Proper Management Model – the Brazilian Situation	9:10-9:50 CET	Digitalization in Semiconductor Manufacturing	14:15-14:55 CET
 <div> Luiz Alberto Barberini External Manufacturing Operations Manager Bayer </div> 		 <div> Olaf Herzog Senior Vice President Infineon </div> 	
How MSD is Fighting the Fakes with Blockchain Technology	9:50-10:30 CET	COFFEE BREAK	14:55-15:10 CET
 <div> Alex Popa Associate Director Blockchain for Pharma Supply Chain MSD </div> 		SPONSORSHIP SLOT & Q&A	15:10-15:50 CET
COFFEE BREAK	10:30-10:50 CET	CLOSING REMARKS	15:50-16:00 CET
SESSION 2 <i>*2 slots are available</i>		DINNER & COCKTAIL RECEPTION	19:00-21:00 CET
Medical Drone Delivery Network: Opportunities & Challenges	10:50-11:30 CET		
 <div> Maurits Dogterom Business Developer Medical Drone Service PostNL </div> 			

OPENING REMARKS

9:00-9:10 CET

EVALUATION TIME

9:10-9:30 CET

SESSION 4

Temperature-controlled Logistics For Cell & Gene Therapies

9:30-10:10 CET

Matteo Maccani
Global Vaccines Supply Chain
GSK

Developing A Risk-based Approach To Selecting Temperature-control Solutions In Today's Complex Operating Environment

10:10-10:50 CET

Javier Rapado Simarro
European Region Cold Chain
Logistics Product Manager
Maersk

COFFEE BREAK

10:50-11:10 CET

SESSION 4

Managing Continual External Supply Chain Disruption

11:10-11:50 CET

Chris Wallace
Senior Vice President Supply Chain
Clover Biopharmaceuticals

SESSION 5

11:50-12:50 CET

- Operation management software
- Warehouse management tools
- Order processing tools
- Demand forecast tools

CLOSING REMARKS

12:50-13:00 CET

LUNCH TIME

13:00-14:00 CET

Luiz Alberto Barberini
External Manufacturing Operations Manager
Bayer

LUIZ ALBERTO BARBERINI is a mechanical engineer, CQE and APICS certified, MBA, and post-graduated in Marketing, Logistics and Transports.

Has worked for almost 30 years in activities related to Supply Chain, Procurement and Logistics. Ford Motors, Rhône-Poulenc, British American Tobacco, Pfizer, Takeda Pharmaceutical and Merck, Sharp & Dohme are some companies where he worked for. Currently as Latin America External Manufacturing Operations Manager, Consumer Care, at Bayer.

Additionally, also teaches Negotiation, Demand Management, Quality in Supply among others for major post-graduation schools in São Paulo – Brazil.

Maurits Dogterom
Business Developer Medical Drone Service
PostNL

Maurits Dogterom is a business developer at the Medical Drone Service, a start-up part of PostNL and ANWB. He graduated in Transport, Infrastructure and Logistics, specializing in Aviation and Rail Network Planning.

He has been working at PostNL for 2 years, during which he had different roles as operational manager and supply chain developer at the Cross Border Solutions division of PostNL. Currently, he is working at the Medical Drone Service, in which he is expert in connecting healthcare IT-systems to the network and expanding the network by optimizing the utilization of the drones.

His ultimate passion is to develop innovative mobility solutions, by designing drone delivery networks, which aim to keep (healthcare) systems accessible and available.

Pratik Jain
Project Manager
DHL

An enthusiastic, analytical professional, having experience of residing in 7 countries (IN, FR, KR, SE, NO, PL, DE) across the globe with an academic background in engineering and business studies coupled with practices in the domains of leadership, supply chain, industrial operations, business, financial and data analytics.

Alex Popa
Associate Director | Blockchain
for Pharma Supply Chain
MSD

An engineer at heart, Alex is a T-shaped professional, with deep interdisciplinary knowledge and passion for Digital Transformation in healthcare. He enjoyed positions throughout his career in technical operations, solutions delivery, infrastructure architecture, product management, agile transformation, consultancy, innovation, and strategy. In his current role, Alex is using both business and technical skills to orchestrate business and technology professionals working diligently to integrate the blockchain with underlying enterprise capabilities, supervise the development of custom-built protocols and applications focused on particular use cases that can relieve pain points to challenges in Pharma industry.

Chris Wallace
Senior Vice President Supply Chain
Clover Biopharmaceuticals
